

Are you ready for a new career?

Attend Our "Introduction to Government Consulting" Workshop!

April 22, 2015 | 9am-4pm | Alexandria, VA

The Federal Government is constantly in need of skilled STEM-trained consultants

Learn the skills necessary to excel at this profession!

Professional STEM-educated consultants will teach you where the jobs are and "inside tips" to successfully work in government consulting

"Workshops are extremely informative and entertaining!"

- Tori S. Herndon, VA

Talk with hiring managers, STEM consultants, security clearance officers, and contracting experts

Limited Seating Available!

Take Advantage of Our Early Bird Pricing (\$299) By Registering Before April 1, 2015

Workshop Topics Include

- "Day in the life" of a government consultant
- Where to look for jobs in government consulting
- Steps you can take today in preparation for your government consulting career
- Resume preparation, interviewing techniques, job searching tips
- Applying technical skills to excel as a government consultant
- Qualifications for security and public trust clearances
- How government consulting differs from management consulting
- Why STEM graduates find government consulting a highly rewarding career
- What makes you a good "fit" for a company
